

Resistance Welders – Are You Up to The Test?

Help Develop Our Certified Resistance Welding Technician (CRWT) Program

AWS and the Resistance Welding Manufacturing Alliance (RWMA) are beta testing our new and updated CRWT exam and we need volunteers from all RW sectors across the U.S. to help us.

Objective: To evaluate exam question appropriateness and difficulty
Exam Details: 2.5-hours, computer-based, closed-book
Exam Location: Your nearest Prometric Test Center
Registration Period: Any time before November 30, 2018
Testing Period: At your convenience between October 31, 2018 and February 28, 2019

What's in it for You?

Bragging Rights. You're part of an elite group of industry experts on the bleeding edge of resistance welding engaged to directly impact the development of a valuable new certification program for broad release.

Opened Doors: Your proven expertise in resistance welding will increase your opportunities with auto manufacturers, automation and tooling companies, resistance welding equipment fabricators and similar industries.

Tangible Benefits:

- Get **FREE** online use of 5 CRWT reference books
- Earn 10 Professional Development Hours (PDHs) toward any applicable AWS certification
- Receive a Certificate of Participation

Please Note: By participating in the CRWT exam beta test, you will be helping to refine a certification exam prototype in preparation for release. While you will receive a completion certificate, formal CRWT certification credentials cannot be issued based on beta test results.

To grab your spot, please email betaexams@aws.org.
You will receive a link to the registration page.
